Remarks: Bill- As requested in your memo of 25 July 1968, I'll keep you advised of any significant implementation actions that are accomplished on behalf of the MC&G Study. There seems to be some misunderstanding concerning the delivery of the Admiral's memo to you with the promptness I directed. Knowing that COMIREX was in session and believing that this memo might have a bearing on your agenda and be useful to you, I asked Art to get the contents to you ASAP. I specifically did not request that

1. All USIB Members noted the reference report as of 31 July 1968.

2. Admiral Lowrance as acting DIA Member noted the report subject to the "understanding that the 3-5 million square miles annual maintenance requirement represents relatively small areas scattered world-wide, whereas the 19-28 million square miles requirement for the first three years consists primarily of large contiguous segments of the earth's surface. Consequently, the level of effort required annually to satisfy both requirements should be roughly equivalent."
